Make this easy Colorblock Wrap and discover Simple Soft Boucle™, another yarn in the Simple Soft family of yarns from Caron!

Welcome to Caron Connections, your free e-newsletter from Caron International.

New Fashion Yarn from Caron®

NEW! Simple Soft® Tweed

In the last issue of *Caron Connections*, we introduced Simple Soft Shadows™, a subtle self-stripping yarn that's made from your favorite Simple Soft fiber. But we just couldn't stop with Shadows. Now we'd like to introduce you to Simple Soft Tweed™!

Using the same Simple Soft fiber that you've known for years, Simple Soft

Tweed adds contrasting flecks of color to 7 solid shades. The result is a British tweed look with all the softness, drape and luster of Simple Soft. Better still, all Tweed colors a match a corresponding Simple Soft color.

Notes from Cari

One of the wonderful advantages of Simple Soft Tweed and Simple Soft Shadows is that you can use them in any pattern that calls for Simple Soft or other worsted weight yarn. We wanted a complete, coordinated range of shades that work for all Simple Soft patterns but add their own unique touch. So without having to search for new designs, you can give a whole new look to your "tried and true" patterns. Try adding Tweed as an accent cuff, collar or button band to a favorite sweater pattern, or a incorporate Tweed in a throw pattern, alternating motifs or adding a Tweed border. If you'd like to see a few new patterns using Tweed, [click here](#). The options are limitless, but the results are the same—amazing softness, wonderful drape, remarkable luster. And machine washable, too.

Cari Clement
Director of Fashion
& Design

In the next issue of *Caron Connections*, we'll show you even more exciting yarns. Or, you can [visit our website](#) and take a look.

Happy stitching,

Cari Clement
