NEW YARN!
Simply Soft Eco

The fiber used in our new **Simply Soft Eco** yarn is really a miracle of modern technology. The fiber begins as sterilized, shredded clear plastic drinking water bottles. This bottle "flake" is then melted and spun into a lofty fiber that resembles fiber-fill. Then, our mills spin and blend the recycled fiber with the same acrylic fiber we use to make Simply Soft yarn. It's an amazing transformation that produces a wonderful yarn. Discover the magic of Simply Soft Eco yourself with our new two-color **Baby Blanket** with a charming ruffle edging. Or our adorable **Kid's Striped Hoodie**. And help us save the planet one stitch at a time.

Designer Tammy Hildebrand has many fans and rightly so. Her designs are so wearable by so many, plus her crochet stitchwork is engaging yet simple, perfect for the intermediate crocheter or the advanced beginner who likes a little challenge. Our **Sherbrook Elongated Summer Jacket**, Tammy's newest project in **NaturallyCaron.com Country yarn**, is a wonderful example of her work. The drape and fit of this non-traditional sleeveless jacket will make it your wardrobe favorite in the coming months. Make one in a deeper color for the office, and another in a light and lovely color for spring and summer weekends.
